

TRANSCUBE GLOBAL

The TransCube Global is a transportable, environmentally friendly double-walled fuel storage tank, that offers an efficient solution for on-site fueling and auxiliary supply. With its fully transportable design and ability to fuel multiple pieces of equipment simultaneously.

MODEL: 10TCG

The Transcube Global 10TCG is a portable, economic, double-walled fuel tank. Reliable and flexible, for transporting fuel where and when you need it.

SECURABLE

Overfill protection, fitted with UL listed overfill protection device.

STACKABLE

Easily stackable: two high full and three high empty.

ENVIRONMENTALLY SAFE

Double-walled, 110% containment eliminates the need for spill pans, UL 142 approved.

TRANSPORTABLE

Full load lifting eyes, four forklift pockets and internal baffles designed to allow handling of the tank full of fuel.

MAINTAINABLE

Removable inner tank for routine cleaning, maintenance and inspection.

SPECIFICATIONS

Standard fittings: High accuracy contents gauge; 3" Fill Point; 1" pump feed with flexible dip pipe, strainer & non-return valve; (1) engine feed and return port set; pressure/vacuum vent; breather vent.

Optional fittings: Complete transfer pump kits; water & particulate filter kits; fuel up to (2) feed & return blocks; fuel hose & quick couplers.

Capacity (brim fill) litres:	1,141	Weight empty (kg/lbs):	513kg / 1,131lbs
Capacity (brim fill) US gallons:	251	Weight full (kg/lbs):	1451kg / 3,199lbs
Capacity (safe fill) US gallons:	238	Approvals:	UL142, CAN/ULC-S601, US DOT, UN-IBC, TRANSPORT CANADA, NFPA30
